Above Graph helps us to find the correlation between all the columns

# RECOMMENDATION FOR REDUCING Charged Off Loans

- Lending Club could reduce the loan interest
- Loan given for debt consolidation purpose could be reduced
- Loan given to the people having 10+ years of employment should be done carefully
- Loan provided to the people in state of CA should be reduced.
- Loan provided to people having home ownership as mortgaged should be reduced
- Loan Approval Ratio should be reduced
- Investigation need to be done before providing the loan to Grade B especially B5 sub grade
- Verification should be done before providing the loan
- Loan given to people having annual income between 60k-70k should be reduced

Thank You
